Tetiana KOZHUSHKO

UI/UX & Product Designer

B2B SAAS · WEB · MOBILE · WARSAW / REMOTE

Hi, I'm Tetiana. I design products people understand without a tutorial, along with the flows, prototypes and components behind them. At GRC Trail I was **the only designer**, so every screen of a compliance platform passed through my hands. I also teach dance, so I **designed and built a booking app for my own classes**. It's live, and I keep shipping updates.
